Career Transition

Stemming from a personal fulfillment need during the pandemic, I questioned myself about a career change and realized that the Development field would be the starting point. My friends and close acquaintances told me that I had a knack for the area. So, I began researching and studying this topic, and with each class, each challenge, I became more and more passionate about the Dev career. I am very eager to acquire new experiences, contribute to a focused team, and be in an area that provides this life change.

Experience

Skill Labs / Tech Lead Front-end

SINCE JANUARY 2024, REMOTE

As a Tech Lead Front-End at Skill Labs, a startup dedicated to recruiting technology professionals to participate in voluntary projects, I lead and guide a team of front-end developers in initiatives aimed at enhancing technical skills and promoting collaboration. My role involves project management, implementing best front-end development practices within the Javascript ecosystem, and fostering a collaborative environment to achieve our goals.

Editora Construir / Sales Assistant

DESDE MAIO DE 2018, JOÃO PESSOA - PB

Assisting regional supervisors through the creation and processing of reports and spreadsheets and performing administrative functions.

Skill Labs / React JS Developer

AUGUST 2023 - JANUARY 2024, REMOTE

As a Junior Front-End Developer at Skill Labs, I dive headfirst into innovative projects, applying my passion for technology to create engaging user experiences. Working as a team, I constantly seek to learn and improve my skills, actively contributing to the development of intuitive and functional interfaces. At Skill Labs, we participate in voluntary projects that broaden our horizons and consolidate a solid foundation for my professional journey.

Organize Soft / AngularJS Developer

DECEMBER 2022 - FEBRUARY 2023, REMOTE

Initially migrating to Angular using the PO-UI component library, utilizing FiveWin on the back-end.

Education

WYDEN/ Analysis and Systems Development

04/2024 - 04/2027

I am acquiring expertise in requirements analysis, system design, programming, and implementation of innovative technological solutions. My curriculum includes experience in modern programming languages, frameworks, and agile methodologies, preparing me to face the challenges of software development in an ever-evolving market.

EBAC / Full Stack Developer - Javascript

This course teaches how to create interactive websites, mobile applications, and high-load services using the world's most popular programming language - JavaScript and its ecosystem. Starting from scratch, we learn basic and advanced concepts, evolving our programming skills. At the end of the course, we will be prepared to pursue a successful career as developers.
