Career Transition

Driven by a desire for personal and professional fulfillment, I embarked on a journey of career exploration and discovered that the field of Development was my calling. My friends and loved ones encouraged me to pursue this path, affirming my aptitude for it. Thus, I delved into research and study, and with each lesson and challenge, my passion for a Dev career grew stronger.

I am eager to acquire new experiences, contribute to a focused team, and immerse myself in an environment that fosters this transformative career change.

Experience

Here is a brief summary of my experiences, but I would like to delve deeper into what each of them has taught me during a conversation.

Editora Construir / Commercial Assistant

MAY 2018 - PRESENT, JOÃO PESSOA - PB

Assisting managers by creating and processing reports and spreadsheets, executing administrative tasks where I improved my teamwork, self-management, and problem-solving skills.

Skill Labs / Tech Lead Front-end

JANUARY - JUNE 2024, REMOTE

At Skill Labs, I led and guided a team of front-end developers in activities focused on improving technical skills and promoting collaboration. My role involved project management, implementing best practices in front-end development within the JavaScript ecosystem, and fostering a collaborative environment to achieve our goals. Being in this role was highly rewarding because it challenged me to seek solutions, developed my research skills, and allowed me to share knowledge with others.

Skill Labs / React JS Developer

AUGUST 2023 - JANUARY 2024, REMOTE

As a Junior Front-End Developer at Skill Labs, I dove headfirst into innovative projects, applying my passion for technology to create engaging user experiences. I worked in a team, constantly striving to learn and improve my skills, actively contributing to the development of intuitive and functional interfaces.

Organize Soft / AngularJS Developer

DECEMBER 2022 - FEBRUARY 2023, REMOTE

I handled code migration to AngularJS using the PO-UI component library, with FiveWin on the back-end. Despite the short duration, this was my first experience in the IT market, which left me even more excited and passionate about the field.

Education

Among many studies, I highlight here the most recent and/or complete ones, trying to express my commitment to gaining knowledge. I am willing to discuss more about my studies, and both my [GitHub](#) portfolio and [professional website](#) showcase more of this aspect.

WYDEN/ Analysis and Systems Development

04/2024 - 04/2027

I am acquiring expertise in requirements analysis, system design, programming, and implementation of innovative technological solutions. My curriculum includes experience in modern programming languages, frameworks, and agile methodologies, preparing me to face the challenges of software development in an ever-evolving market.

EBAC / Full Stack Developer - Javascript

This course teaches how to create interactive websites, mobile applications, and high-load services using the world's most popular programming language - JavaScript and its ecosystem. Starting from scratch, we learn basic and advanced concepts, evolving our programming skills. At the end of the course, we will be prepared to pursue a successful career as developers.

ONEBITCODE / Full Stack Developer - Javascript

- Sass + Bootstrap
- Javascript
- Typescript
- React + Node
- SQL + Mongo DB
- Git + Github

ROCKETSEAT / Discover Track

- Hardware, software, firmware, and drivers
- Properties and function of RAM, HD/SSD, and more
- Computational and logical thinking
- Operating systems and environment configuration
- Back-end with JavaScript, Node.JS, and SQL
- Data structure and management
- Object-oriented programming
- Front-end with a focus on HTML, CSS, JavaScript, and DOM
- Terminal, HTTP in-depth

UNIESP / Bachelor's in Business Administration

INCOMPLETE (AWAITING THESIS DEFENSE)

Market-oriented training, developing skills such as business vision, technical and leadership behavior, managing various company resources like finance, human resources, and materials.

INGLÊS / CCAA, Minds

2009, 2018

Advanced conversation, reading, and text interpretation.
